

RESUME

DHARSHAN S

☎ 6369749531
✉ dharshansenthil2007@gmail.com
📍 Thuraiyur (TK), Trichy (DT)621004.

SKILLS

- Basic Embedded Systems
- 8051 Microcontroller
- Arduino & ESP32
- PLC Ladder Programming
- MATLAB/Simulink
- Sensors & Actuators
- Basic Electrical & Electronic Circuits.

PROFESSIONAL ASSOCIATION

- MATH CLUB
- IAENG MEMBERSHIP

PORTFOLIO

<https://github.io/Portfolio/>

LINKEDIN PROFILE

<https://www.linkedin.com/in/dharshan-s-0160a0333>

SUMMARY OBJECTIVE

- To become a good engineer where I can build my knowledge and quality.

AWARDS

- 4th Prize – IDEAForge: Electronic Echoes: A New Era of E-Waste Solution
Recognized for developing and presenting an innovative engineering solution focused on sustainable e-waste management.

VOLUNTEER WORK

Project Expo Head – Symposium GRID2K26

- Coordinated and managed project expo activities during Symposium GRID2K26, supporting student participants, organizing project presentations, and helping ensure smooth execution of the event.

EDUCATION

B.E EEE
KSR COLLEGE OF ENGINEERING
TIRUCHENGODE
MAY 2028

Pursuing B.E. in Electrical and Electronics Engineering with interests in Embedded Systems, PLC Programming, Industrial Automation, and Electrical Engineering. Gaining practical experience through projects, internships, and technical activities.

WORK EXPERIENCE

1| EDU TANTR – Embedded Systems Internship

Job Title: Embedded Systems Intern

Employer: EDU TANTR

City: Bangalore

State: Karnataka

Description: Completed a 3-month online internship in Embedded Systems, gaining practical knowledge of microcontrollers, embedded programming, sensors, interfacing, and basic IoT concepts. Worked on hands-on learning activities and developed an understanding of embedded system design and applications.

2| Aerospace Engineers Private Ltd – Internship

Job Title: Engineering Intern

Employer: Aerospace Engineers Private Ltd

City: Salem

State: Tamil Nadu

Description: Completed a 15-day industrial internship and gained exposure to engineering manufacturing processes, industrial operations, and workshop practices. Observed different manufacturing activities and gained practical knowledge of industrial engineering workflows and workplace safety.

CERTIFICATIONS

- Embedded Systems internship/certificate
- PLC / Industrial Control course
- MATLAB/Simulink certificates

TECHNICAL TOOLS / SOFTWARE

- MATLAB/Simulink
- Arduino IDE
- Proteus
- PLC/SELPRO
- Blynk
- GitHub

PROJECTS

Smart Solar-Powered Agarbatti Drying & Packaging System

- **Tools:** Arduino, Sensors, Proteus
- Designed a compact solar-powered drying and packaging system for home-based agarbatti manufacturing. The system focuses on controlled drying using temperature and humidity monitoring, hygienic airflow, and moisture-resistant packaging to improve product quality and storage.

Smart Animal Proximity Detection System

- **Tools:** ESP32/ESP8266, Ultrasonic Sensor, Buzzer, LEDs
- Developed a roadside animal proximity detection concept using an ultrasonic sensor to monitor the distance between vehicles and animals. Implemented distance-based warning indications using LEDs and a buzzer to alert the driver when an animal enters a critical safety range.

SMARTFLOW – Intelligent Adaptive Traffic Signal System Technologies:

- Sensors, Camera, Microcontroller/Raspberry Pi, MATLAB/Simulation, Traffic Signal Control
- Developed an intelligent adaptive traffic signal system concept that analyzes real-time traffic density, queue length, waiting time, and traffic direction to dynamically adjust signal timing. The system includes traffic detection, intelligent decision-making, adaptive green-time control, emergency vehicle priority, and fail-safe operation. The concept was validated through hardware-prototype and MATLAB-based simulation approaches.

PROFESSIONAL SUMMARY

Third-year Electrical and Electronics Engineering student with a strong interest in Embedded Systems, Industrial Automation, PLC Programming, and MATLAB/Simulink. Gaining practical experience through internships, academic projects, and hands-on technical learning. Eager to apply engineering knowledge, develop industry-relevant skills, and contribute to innovative engineering solutions.

HOBBIES

- Exploring Embedded Systems & New Technologies
- Electronics and DIY Projects
- Learning PLC & Industrial Automation
- Photography
- Traveling
- Listening to Music
-

REFERENCE

Dr. V. Ravi, Professor

Department of Electrical and Electronics Engineering

K.S.R College of Engineering, Tiruchengode.

DECLARATION

I hereby declare that the information provided in this resume is true and correct to the best of my knowledge and belief.

Place: Tiruchengode

Date: 01 / 10/ 2026
